NEW PRODUCTS: 37-1204 and 37-812 Lock-down Knobs

37-1204 Lock-down Knob (left); 37-812 Lock-down Knob (right).

Pro-Cut's new **Lock-down Knobs (37-1204, 37-812)** are designed for use with the 50-1200 and 50-220 cutting heads.

37-1204 is a 5-lobed knob with a larger grip that is easier to turn when locking down the 50-1200 cutting head.

The **37-812** "mickey mouse ear" knob allows for excellent leverage when locking down the 50-220 cutting head.

Both of these new knobs allow for sufficient clearance when attaching any of the silencers.

Contact the Pro-Cut Service Department at 800.543.6618, Prompt #2, with any questions.
