

THE
MULETM

**BRAKE & WHEEL SERVICE
JUST GOT
WICKED
EASY**

INTRODUCING THE MULE FROM PRO-CUT! Sick and tired of a sore back from lifting heavy wheels by hand? The Mule is an intuitive, efficient and simple way to quickly remove and stow wheels while you perform brake or suspension work. This is the RIGHT way to handle wheels. With its unique nesting design, you save valuable floor space while being completely untethered: No cords to plug in and no batteries to charge. Once you use it, you'll wonder why you didn't own one sooner!
